

January 2024

McCausland Meanderings

Website Needs

I need your input. Here are some of the things the new website will have.

- Easier access to permits
- Simple instructions for paying on line.
- New Residents Resources
- FAQs - If you have ideas for this please tell me!
- A simple, cleaner design for easy use!
- If you want your business added, **please fill out the form on the back** so I have all the correct information.

New Website Coming Soon!

The City has made some upgrades in our technology areas this year. We have a better system for guarding against cyber attacks. We have upgraded our IT support. And we are launching a new website!

Please sign up for our subscription service to receive texts and email alerts.

Sheila would like to know what items you need on the website to provide you the best service. We are adding a resident resource page, some FAQs and information on local attractions. We hope you will find the new website helpful. So please check it out and let me know how we can improve it! The temporary site is: www.mccausland.municipalimpact.com

And as always, send me any pictures that you take and we can keep them for our historical records and perhaps use them on the website!

SNOW!

We thank you for your patience as Tony worked his best to clear the snow for you. As a reminder, you are responsible to shovel/blow and salt the sidewalk in front of your property. Please do not shovel or blow it into the street. Move your car to assist in cleanup after the snow event, if possible. Also, be sure to move your trash and recycling cans off of the street after pickup. We thank you for your assistance!
